CALL FOR PAPERS

Dear colleagues!

On behalf of the Program Committee and Organizing Committee We have a great pleasure to invite you to Bulgaria for the IITI’17 Conference. This event will be the 2nd Conference of the series on Intelligent information technologies for industry. It is organized by Technical University of Varna (Bulgaria), Technical University of Sofia (Bulgaria), VŠB – Technical University of Ostrava (Czech Republic) and Rostov State Transport University (Russia).

The purpose of the International scientific conference «Intelligent Information Technologies for Industry» is to bring together international researchers and industrial practitioners interested in the development and implementation of modern technologies for automation, informatization, computer science, artificial intelligence, transport and power electrical engineering. The conference aims at advancing both, fundamental research and innovative applications, and seeks to establish a new dissemination platform and an international network of researchers in these fields. Innovative information technologies are of particular interest to the conference.

The organizing committee of the conference is inviting interested researchers and professionals to submit papers describing significant scientific achievements and innovations. All submissions will be thoroughly peer-reviewed by multiple reviewers. Proceedings of IITI’17 conference will be published in Springer series Advances in Intelligent and Computing. It will be indexed by Thomson ISI, SCOPUS and DBLP. The extended versions of the best papers presented at this conference will be considered for publication in special issues of internationally recognized journals.
